PROFESSIONAL PROFILE

Digital marketing specialist with 7+ years at ACCIONA (IBEX 35) leading web strategy, organic acquisition and content across international markets. Expertise in SEO, GEO (AI search optimisation), and enterprise CMS ecosystems. Focused on driving brand visibility as search evolves from traditional engines to AI-generated answers and LLM discovery.

EXPERIENCE

Global Growth Marketing Specialist — Web, SEO, AI Search & Inbound | ACCIONA - Madrid (2019 - Present)

Lead web, SEO and inbound initiatives for ACCIONA's corporate digital ecosystem across multiple international markets.

Core Responsibilities

- **Web Strategy & CMS:** Lead end-to-end delivery of corporate web projects from UX design (Figma) to development and content deployment in Adobe Experience Manager (AEM).
- **Organic Growth & SEO:** Design SEO architecture including pillar content strategy, keyword research, internal linking and technical optimisation (Schema.org, Core Web Vitals).
- **AI Search & GEO:** Implement GEO (Generative Engine Optimisation) frameworks to optimise content and metadata for AI search platforms including ChatGPT, Perplexity, Gemini and Google AI Overviews.
- **Inbound & Content Strategy:** Define content strategy for acciona.com and brand editorial platforms, coordinating international content production with external agencies.
- **Analytics & Performance:** Monitor web, SEO and inbound performance using GA4, Looker Studio, Hotjar and Sealmetrics, translating insights into growth initiatives through the ICE prioritisation framework.

KEY ACHIEVEMENTS

- **Achieved 1,300+ monthly brand mentions in AI search engines.** Developed and implemented GEO (Generative Engine Optimisation) frameworks optimising metadata and content for ChatGPT, Perplexity, Gemini and Google AI Overviews.
- **Drove +38% organic traffic growth.** Led the end-to-end redesign of acciona.com, from UX wireframes in Figma to production deployment; reduced bounce rate by 45% and increased organic acquisition to 44% of total traffic.
- **Improved mobile performance by +75%.** Led the migration of 12 corporate websites and 52 landing pages to Adobe Experience Manager (AEM), consolidating ACCIONA's web ecosystem into a unified enterprise CMS and improving performance metrics.
- **Increased organic SEO value by +210%.** Ranked strategic industry keywords including green hydrogen, reverse osmosis desalination and blade lifter, generating significant growth in organic traffic value.
- **Grew newsletter subscribers by +200%.** Launched a lead magnet programme to support inbound acquisition and email growth.
